

Kinesiology & Physical Education

Nathan S. Wright, Chairperson

In the Kinesiology & Physical Education major at The Master's College, students have the opportunity to study important principles they can use for a successful career and effective ministry in physical education, sports and pre-physical therapy emphasis. These concentrations of study will mold a person's knowledge in activity skills, educational methods, scientific factors in body movement analysis, sports injury care and allied health careers.

The Department of Kinesiology & Physical Education is designed to prepare Christian leadership in such areas as teaching, coaching, sports injury studies and pre-physical therapy emphasis. Graduating students will participate in the instructional areas of elementary and secondary schools (both public and private) and areas of allied health careers. To implement these objectives, the department provides movement theory, activity courses and science basis course work for teaching careers or allied health studies.

California Single Subject Teaching Credential in Physical Education

Students desiring to obtain a California Single Subject Teaching Credential in physical education should talk to their advisors about specific major requirements for this credential and make application to the Teacher Education Department.

General Requirements for all Students

The Kinesiology and Physical Education department does not require any general education requirements for non physical education majors. However, Kinesiology and Physical Education majors are not required to take general education requirement MA240 (Critical Thinking and Problem Solving). Kinesiology & Physical Education majors within the pre-physical therapy emphasis are not required to take LS200 (Foundations of Science). Liberal Studies majors can use KPE405 (Statistical Analysis) as an upper division math course.

Senior Competency Requirements

All graduating seniors in the Kinesiology & Physical Education Emphasis are required to pass a department assessment exam with at least a 70% grade. The exam consists of the following two sections: (1) writing analysis and subject matter competen-

cies and (2) skills assessment evaluations in at least nine of the fourteen requirements for Professional Activities courses.

All graduating seniors in the Sports Injury Studies and Pre-Physical Therapy are required to pass a department assessment exam with at least a 70% grade. The exam consists of writing analysis and subject matter competencies.
