ACCREDITATION & ASSOCIATIONS

Removed | Added

The Master's University Teaching Credential Programs are accredited by the California Commission on Teacher Credentialing.

ACADEMIC POLICY

Removed | Added

Catalog Year Policy

Students are subject to the graduation requirements laid out in the catalog for the **academic** year in which their first term of enrollment occurred in any level/program (non-matric, undergraduate, graduate). A student may file a request to change to a subsequent catalog year in which they are enrolled. All requirements must be met under the same catalog. The Master's University reserves the right to change academic policies and procedures during a student's time of enrollment.

All graduation requirements must be completed within seven academic years from the start date of a student's first ~~term~~ **academic year** of enrollment. If seven academic years have elapsed from the date of initial enrollment, the student must meet the graduation requirements of a catalog dated no earlier than seven academic years prior to the anticipated graduation date.

The catalog year begins at the start of the fall semester. Any students starting enrollment in the summer will be subject to the graduation requirements of the catalog for the prior fall semester.

Minors Policy

A minor is an optional secondary area of study which complements a major and allows students to broaden their skill set.

- Minors may not be declared until a major has been declared
- Minors are subject to the requirements stated **in the student's contracted catalog.** ~~during the student's first term of undergraduate enrollment~~
- Minors may not be declared in a student's declared major
- Minors may only be awarded at the same time as the bachelor's degree
- Minors will not be printed on diplomas but will be posted on transcripts

HA560 ~~Healthcare Marketplace, Strategy, and Ee~~

HA560 Strategic Management in Healthcare

NEW COURSES

BTS502 Gospel of John (3)

This is a Directed Studies course.

A study and analysis of the purpose, structure, emphases and significance of the English text of the Fourth Gospel. Special attention is given to theological and Christological content, along with practical truths.

HA580 Global Health and Management Issues (3)

School of Online degree(s) only.

Focuses on major global health challenges and examines key health determinants and areas of disease burdens. Discusses the impact of political, social, environmental, and economic factors on population health globally. Explores other healthcare systems and compares them to U.S. healthcare. Presents public health and health interventions of various governments to protect their populations in situations in general and during pandemics such as the flu and COVID.

MKT563 Consumer Engagement (3)

This course explores the science of consumer engagement. Students will study foundational and advanced strategies to connect brands with consumers to help build trust, loyalty and mutual value. Grounded in a biblical worldview, students will learn to create campaigns that align with the principles of integrity and stewardship.

PROGRAM POLICY CHANGES - GSBC

~~Removed~~ | Added

Advanced Standing

(3rd paragraph) Students who have received ACBC Certification more than one year prior to starting the MABC program may be eligible for advanced standing in ~~BC401~~ BC501, BC556, and BC592.

NEW POLICY - GSBC

SURVEYS

As students work on various writing projects in their MABC or DMin BC program of study, the following guidelines regarding original human surveys apply. Original human surveys in which students request feedback from individuals or groups require approval from our Institutional Review Board (IRB). This is a compliance mandate intended to protect students, the institution, and others involved from any negative exposure that may arise from these well-intentioned efforts. Original surveys are not required to be included in any of the writing projects in our programs of study. It can be helpful, but not always required, to include in student work statistical surveys conducted by other entities that are already published and do not require IRB approval.

The IRB requirement applies to all formal writing projects, such as research papers, thesis projects (e.g., Thesis Outline, Thesis Composition, or Thesis Project), and others in which students request feedback from others to support their conclusions or hypotheses. This requirement does not apply to informal or formal counseling students conduct while in their program. Counseling guidelines and requirements are given in the course syllabi and Canvas pages to which they apply (e.g., Applied Ministry or Soul Care). If students consider it essential to their writing projects to include an original human survey, they should discuss their idea first with the Professor, Instructor, Coordinator, or Advisor involved in the assignment. If approved, contact the Graduate Studies Director to submit a request to the Institutional Review Board for review.

While we support student creativity and thoroughness in research and writing, we ask that students do not incorporate original human surveys into their work unless agreed to by the Professor, Instructor, Coordinator, or Advisor involved in the assignment and the Program Director. The Director will submit a formal request to the IRB on the student's behalf if the survey is deemed essential to the student's work.

Submissions to request survey approval are due to your Advisor and the Director of the MABC program within 30 days after the beginning of the semester. Additional information may be requested, and the review process can take up to 30 days or longer depending on revisions, schedule, and other factors. Students should continue writing as if they are not dependent on a survey to complete their work.

REMOVED POLICY - GSBC

Paragraph removed from pg. 77:

~~International students are only offered to take classes in person on campus for one year (consecutive Fall/Spring or Spring/Fall semesters). Due to student visa requirements for students to be enrolled in a certain number of courses in person each semester, we are unable to guarantee or offer all the classes these students need to take each semester. However, it is likely that we can offer them or some combination of them during the student's first year. The remainder of the courses needed can be taken remotely from the student's home country. We are committed to work with every international student to provide the best quality education while remaining compliant with legal requirements. International students should see their academic advisor and their designated school officer with any questions.~~

UNDERGRADUATE PROGRAMS

PROGRAM POLICY CHANGES

~~Removed~~ | Added

Engineering Lab Fee

All engineering majors (CS majors not included) will be charged a laboratory fee each semester in lieu of individual course fees to cover the cost of maintaining engineering equipment and providing laboratory safety.

Department of Biblical Studies - Minor in Biblical Studies Requirement

Courses must be completed at TMU, or with an IBEX G.E. substitute (with approval). Transfer credit will not be accepted. Up to 12 units can be taken online; the rest must be taken in person.

Department of Biblical Studies - Online Enrollment Restrictions for Traditional Students

For the purposes of this policy, a TMU student who declares and is currently pursuing a Traditional curriculum as indicated on his/her academic record. Traditional students may take any online G.E. courses. However, they may not take upper division Biblical Studies courses, or any major courses from the Biblical Studies, Biblical Counseling, or Christian Ministries online degree programs. If any traditional student desires to pursue a minor in Biblical Studies, all their courses must be taken on campus. They cannot be taken online or in IBEX.

PROGRAM LEARNING OUTCOMES CHANGES

Removed | Added

Multiple Subject Teaching Credential Program Learning Outcomes

1. Candidates will demonstrate the knowledge, skills, and dispositions needed for:
 - a. Engaging and supporting all students in learning (TPE1).
 - b. Creating and maintaining effective environments for student learning (TPE2).
 - c. Understanding and organizing subject matter for student learning (TPE3).
 - d. Planning instruction and designing learning experiences for all students (TPE4).
 - e. Assessing student learning (TPE5).
 - f. Developing as a professional educator (TPE6).
 - g. Providing effective literacy instruction for all students (TPE7).

Single Subject Teaching Credential Program Learning Outcomes

1. Candidates will demonstrate the knowledge, skills, and dispositions needed for:
 - a. Engaging and supporting all students in learning (TPE1).
 - b. Creating and maintaining effective environments for student learning (TPE2).
 - c. Understanding and organizing subject matter for student learning (TPE3).
 - d. Planning instruction and designing learning experiences for all students (TPE4).
 - e. Assessing student learning (TPE5).
 - f. Developing as a professional educator (TPE6).
 - g. Providing effective literacy instruction for all students (TPE7).

NEW COURSES

B301 Old Testament Survey I (3)

Prerequisite: Only for Teacher Education majors who need additional upper division credits.

Fee: \$25.

An introduction to the entire Old Testament, employing both thematic and exegetical methods. Literary structure, historical background, and parallel passages are also utilized to discover the unique and priceless lessons of each book. This surveys Genesis through Samuel. [FA]

B302 Old Testament Survey II (3)

Prerequisite: Only for Teacher Education majors who need additional upper division credits.

Fee: \$25.

An introduction to the entire Old Testament, employing both thematic and exegetical methods. Literary structure, historical background, and parallel passages are also utilized to discover the unique and priceless lessons of each book. This surveys Kings through Malachi. [SP]

B399B Life of David (3)

This course is an extensive examination of the life of David, primarily through the lens of 1 and 2 Samuel, with special attention being given to how God's covenant with David progresses the story of redemption. All passages of Scripture will be examined with an eye toward ultimate fulfillment in Christ.

B399V The Book of Joshua (3)

This is a directed study only.

Inductive Bible Study of the Book of Joshua.

B439 New Testament Issues (3)

This course surveys controversial topics of current interest within the field of New Testament studies, including questions of historicity, chronology, archaeology, hermeneutics, and theology.

B401 New Testament Survey I (3)

Prerequisite: Only for Teacher Education majors who need additional upper division credits.

Fee: \$25.

An introduction to the books of the New Testament, with special emphasis on the life, teachings, and redemptive work of Christ; the founding and growth of the church; and the teachings of the epistles and Revelation. On the basis of the biblical text, parallel readings, projects, and lectures, the events and messages of the New Testament will be portrayed against their historical and cultural setting. Only for Teacher Education majors who need additional upper division credits. This course surveys the Gospels and Acts. [FA]

B402 New Testament Survey II (3)

Prerequisite: Only for Teacher Education majors who need additional upper division credits.

Fee: \$25.

An introduction to the books of the New Testament, with special emphasis on the life, teachings, and redemptive work of Christ; the founding and growth of the church; and the teachings of the epistles and Revelation. On the basis of the biblical text, parallel readings, projects, and lectures, the events and messages of the New Testament will be portrayed against their historical and cultural setting. This course is devoted to the Epistles and Revelation. [SP]

ECE490 Internship (3)

Junior or Senior Standing.

Provides an applied electrical or computer engineering-related learning experience in a supervised work environment.

LS387J Special Topics: Dental Studies (1)

This course is designed to encourage students who are suitable candidates to consider dentistry as a career. It is composed of a series of lessons specifically designed to be interesting and supportive and covers a range of subjects with which future dentists and medics should be familiar, and will prepare them for the application process of applying to professional schools. The accompanying text book, "Why Dentistry", written especially for the course has chapters covering the dental specialties and how to shadow in a dental office, what dental education entails, how the profession is changing, it lists famous dentists and their contributions, the great discoveries that have transformed the profession, the history of dentistry and a careful explanation of why dental care is so important. The lessons also underscore those aspects of the present general degree on which attention should be focused to obtain maximum advantage for future studies.

LS490 Internship in Science (1)

Prerequisite: Instructor Approval.

Internship (1-4) Prerequisites: junior or senior standing and instructor's consent. Provides an applied biology-related learning experience in a supervised work environment. The course is 1 unit for every 60 hours of work.

OLP101 Essentials of TMU Online (3)

Students are required to complete this course as a part of their first session enrolled. Essentials of TMU Online provides an essential and comprehensive orientation to our university, equipping you with the knowledge and skills necessary to succeed as an online learner.

PS211L College Physics I Lab (1)

Prerequisite: MA101 (algebra-based physics). Concurrent with PS211.

Lab fee: \$100.

3-hour laboratory. [FA]

PS212L College Physics II Lab (1)

Concurrent with PS212.

Lab fee: \$100.

3-hour laboratory. [SP]
